# Muhammad Imam Nurokhi

Senior Software Developer · Full-Stack Engineer · Tech Lead

## PROFESSIONAL SUMMARY

Results-driven Tech Lead and Full-Stack Engineer with **11+ years** of experience delivering enterprise-grade digital solutions across e-Commerce, Auditing, and ERP sectors. Specializes in scalable microservices architecture, system automation, and cross-functional team leadership. Track record of bridging business requirements with technical excellence using Go, Node.js, Python, and Java — from product inception to production.

## WORK EXPERIENCE

### Tech Lead

Dec 2025 – Present

Nexora (Part of CBQA Global Group) — Jakarta

- Spearhead end-to-end development of enterprise platforms: Audit-Q, NexERP, OneAlpha & OneDataHub, Odoo ERP
- Define technical strategy, architect systems, and mentor the engineering team
- Ensure system integrity, security compliance, and product scalability across all platforms

### Senior IT Programmer

Feb 2024 – Nov 2025

CBQA Global — Jakarta

- Led feature development and critical bug resolution for internal mission-critical applications
- Built robust backends with Java Spring Boot and PostgreSQL; integrated complex third-party APIs
- Delivered strategic technical reports to stakeholders and executive leadership

### Full-Stack Engineer

Nov 2022 – Feb 2024

Privat Talenta Indonesia — Jakarta

- Built core website systems and CMS platform from scratch
- Developed cross-platform mobile apps (Android & iOS) using Ionic and TypeScript

### Product Dev Team Lead & Engineer

Dec 2015 – Feb 2021

Telunjuk.com — Indonesia

- Led "Compas" — a market intelligence platform for automated e-commerce price tracking, adopted by major retail brands
- Optimized platform for high-traffic scalability and improved core CMS SEO visibility

## KEY PROJECTS

### BeliRoyalEnfield.com

Next.js · Node.js · E-Commerce

Premium motorcycle e-commerce & dealership platform for Royal Enfield Indonesia. Financing simulator, dealer locator, test-ride booking.

[beliroyalenfield.com](https://beliroyalenfield.com)

### PLN Energi Gas

React · Spring Boot · Enterprise

Corporate portal for state-owned gas infrastructure company. Pipeline, LNG/CNG, petroleum refining business lines.

[plnenergigas.co.id](https://plnenergigas.co.id)

### Audit-Q

ERPNext · Frappe · Python

Centralized audit management for ISO, ISCC, LVV & LATIK certifications with QR-validated automated certificate issuance. Internal Platform

### Compas.co.id

Python · Node.js · Web Crawling

Market intelligence platform for real-time competitive price tracking and e-commerce trend analysis at scale.
